EMPOWERING ACCOUNTABILITY FOR A
SUSTAINABLE TOMORROW

VALUE - ACCOUNTABILITY

GRADE - 11

01

Raising Awareness and Personal Accountability

- Conduct research on the harmful effects of non-biodegradable products on the environment.
- Brainstorm and plan creative awareness campaigns (e.g., Brainstorm skits, posters).
- Begin drafting campaign materials.
- Creative Awareness Campaign - Execute, document photos & videos, note down social impact.

Exploring Corporate Sustainability

02

- Assume specific roles within your hypothetical company (CEO, CFO, CMO, COO, CIO). Research and discuss your roles' responsibilities and their potential impact on sustainability.
- Begin preparations for your company case study (Example: Select a car manufacturing company as your hypothetical business and gather information about its current sustainability practices.)

Company Case Study and Sustainability Planning

- Conduct in-depth research on your hypothetical company.
- Identify current sustainability practices and areas for improvement within your roles.
- Develop strategies and recommendations for sustainability improvements.

03

Presentations, Peer Evaluation & Reflections

- Prepare presentations highlighting your awareness campaigns and company case study findings.
- Deliver presentations to the class
- Engage in class discussions about the projects.
- Provide feedback and peer evaluations to other groups
- Reflection Questions:
 - Campaigns impact your local community ?
 - List harmful consequences of non-biodegradable products.
 - How did your role within the hypothetical company contribute to sustainability improvements?
 - What were the key findings and recommendations from your company case study?
 - How has this project changed your perspective on sustainability and personal accountability?
