

# MAKE YOUR CHILD FUTURE READY!

## Artificial Intelligence

We are extremely excited to share our latest product from our stable which is an AI (Artificial Intelligence). In tie-up initiative with the Graduates from Stanford & IIT, we have specially curated this course for students from standards 5th to 12th.

- **Salient Features** - Created & Certified by India's prestigious IIT Alumni
- **Practical Outcomes** – Students dive into the world of coding by designing & developing voice recognition software, AI calculator, social games, weather forecasting tools, insurance analysis tools by themselves!
- **Project Showcase in IIT Techfest** - Selected projects get the chance to be showcased in famous IIT Tech Fests.
- **Certificate** – Get a Nationwide Recognizable Certificate

### Course Includes

**PYTHON**- Syntax, Indentation, Variables, Comments, Variables, Data Types, Arithmetic Operators. Elif, Functions, Loops, Parameters, List, Tuple, Sets

**DATA SCIENCE** - Scipy, Numpy, Matplotlib, Pandas, Sklearn, Data Cleaning, Data Preparation, Data Visualization

**MACHINE LEARNING** - Algorithms, Logistic Regression (LR), Linear Regression (LDA), K-Nearest Neighbors (KNN), Classification & Regression Trees (CART), Naive Bayes (NB), Support Vector Machines (SVM)

### NO PRIOR CODING KNOWLEDGE IS NEEDED

**Duration** - 100 Hrs

**Price** - Rs. 85,000/- Package (inclusive of taxes)

### BENEFITS

- \* LIVE Training
- \* Hands on training
- \* In-Depth learning
- \* WhizJuniors Subscription (for 1 yr)
- \* Personal profile website
- \* Online support
- \* Assured outcomes

## OUTCOME

In a world where everyone is pacing up towards an endless competitive pool of knowledge, the child will have an edge over the others, thus, setting a stage for the child to step to conquer the great expectations, internationally.
